

Meghan is a rising senior at UNC Asheville, pursuing a degree in Mathematics with a minor in Astronomy. Outside of her school work, she loves to spend time with friends and family, most often cooking and enjoying the outdoors. Additionally, Meghan enjoys crafting art and handmade jewelry. As a docent at Lookout Observatory, she has enjoyed communicating scientific ideas to all ages and working with groups and individuals to foster a love of astronomy in her community. On campus, she also works as a Supplemental Instruction (SI) Leader and Peer Mentor for calculus. This role allows her to build strong connections with students and build trust while aiding them in their academic journey. She has always been passionate about helping those gain a deeper understanding and love for math and sciences. Meghan plans to graduate in May 2025 and pursue further education in Graduate school, focusing on research in Astronomy. Meghan says, "I'm grateful that I decided to attend UNC Asheville a few years ago. I never would have imagined how much a school would make a difference on my experience and education. This school has given me access to many opportunities and connections."
